Hi my name is Mir, over the pandemic
I have been having conversations with
people whose parents have gone in to
residential care, we have chosen three very different
stories but you can imagine them like acts of the same play or songs
that are part of the same service.

If you like you can listen to our podcast and flick through this zine
inspired by some of the things that people have said it isn't a program
but it is something you can hold in your hands and look at whilst listen
to the peoples stories.

On a video call during lockdown.
hello,.. hello how are you doing?

*Musical procession as people are seated.

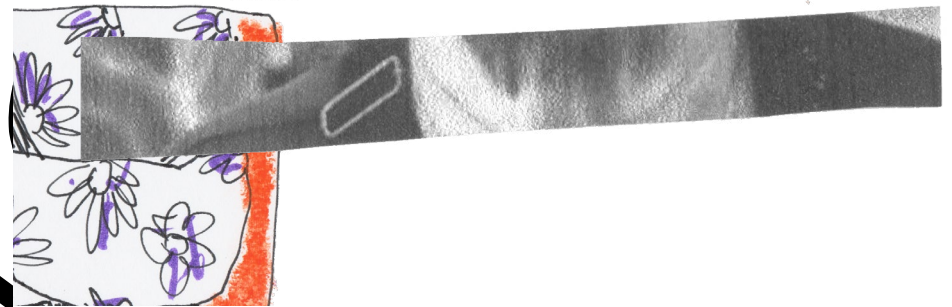

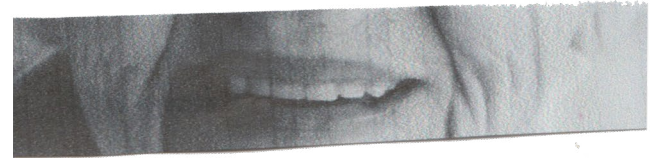

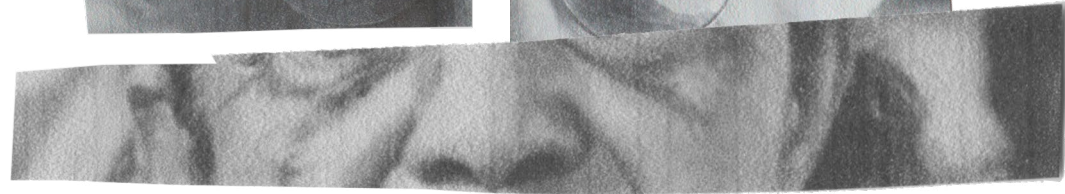

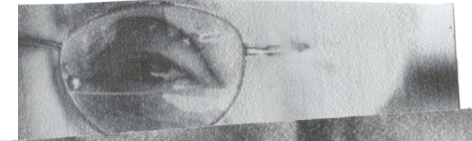

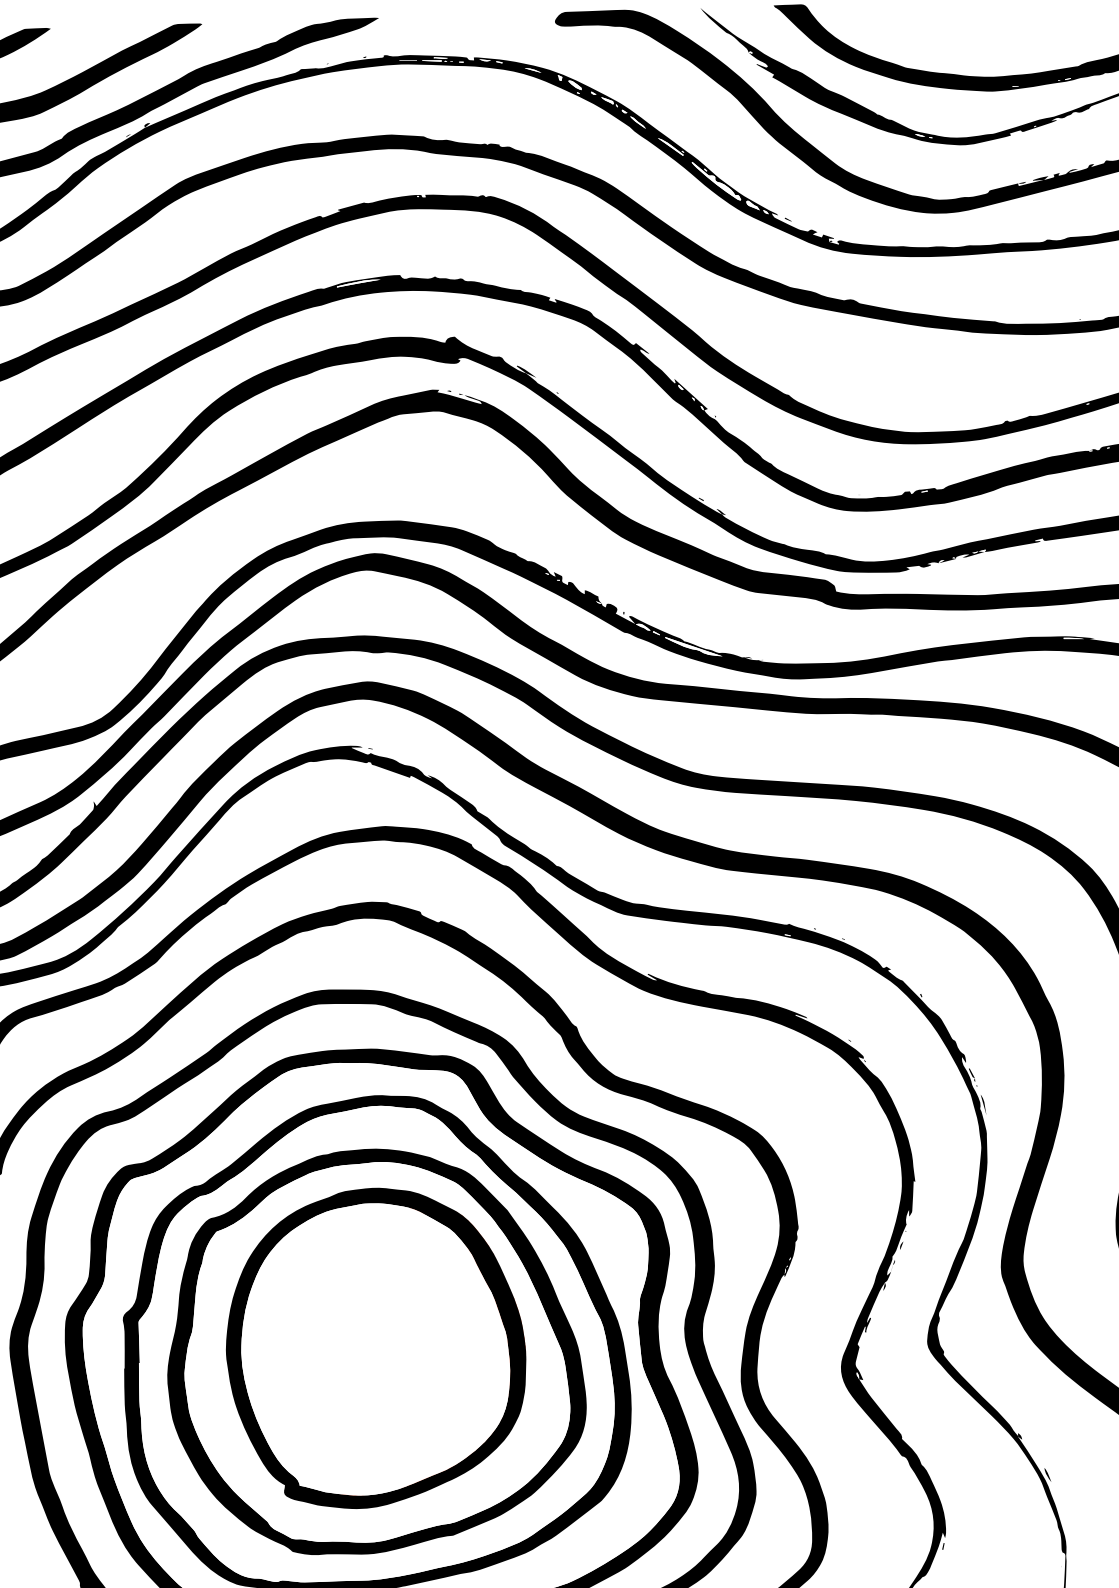

The music wasn't her cup of tea and they would swear a lot and be laughing and getting drunk
